DEDICATION

We, the class of 1968, dedicate *The Charger* to an individual who has unselfishly devoted his time and effort to the making of a successful Senior Class. We are honored to have been associated with him and his subtle humor during our six important years at Chariho, and we will all graduate, knowing we have left a true friend in . . .

SUPERINTENDENT

One of the most pressing problems facing today's high school graduate revolves around his place in the future. The rapidity of change accompanied by dissent and even revolt compounds normal frustrations. Old cliches like predicting the future by analyzing the past now lack their original reverence because the past now slips and blends imperceptibly into the future in a span of time that borders on the instantaneous.

Constant reading permitted by today's leisure and almost mandated by the rate of social change will generally reveal certain guidelines that can render invaluable assistance.

Certain trends that appear to have real substance and relevance assure a degree of stability that is dependable appear on the horizon. There is, for instance, a direct ratio between education and a person's lifetime earnings. The demand for semi-skilled labor will probably continue at present levels.

Technological change seems to assure us that there is scant help for the school dropout or the persons who are capable of performing only manual labor that does not require understanding and skill. The future is fairly clear and unmistakeably bright for those who prepare for it.

Superintendent of Schools

PRINCIPAL

I am pleased to be given the opportunity to extend to the members of the Class of 1968, the congratulations of the faculty and staff.

Each succeeding class in Chariho's short history of eight years has made a major contribution to its tradition. Like your brother alumni, you have continued in the direction established at the initial creation of this prospering institution. The spirit which moved the citizens of the tri-towns to regionalize the first high school of its kind in Rhode Island, has now reached another plateau with the incorporation of technical and vocational facilities for Chariho and the other towns in southern Rhode Island. This makes you, the members of the Class of 1968, the last graduating group which is a total representation of students from the tri-towns. All future classes will be composed of students from the entire county.

Every class that has left Chariho has had a distinguishing mark. Yours perhaps has been noted in your willingness to be receptive to direction. You have taken advice and leadership from your teachers. Analyze and examine it wisely, putting it to use at all times, for we live in a world that requires discretion.

Good luck and best wishes to each of you.

FRANCIS P. PELLEGRINO
Principal

VICE-PRINCIPAL

"There is a tide in the affairs of men
Which taken at the flood, leads on to fortune.
Omitted, all the voyage of their life
Is bound in shallows and in miseries."

This quotation from Shakespeare aptly fits the situation of you, the graduates of Chariho High School in 1968. Your education is a tide which can lead to fortune, if you as individuals have diligently pursued your studies and if in the future you religiously attempt to utilize your training and education for the betterment of yourself and mankind. Your fortune need not be the materialistic fortune by which today's successful man is too often judged. More appropriately, it should be a fortune of the heart, of the spirit. It should be supernaturally inclined, not naturally; it should deal in things spiritual, not physical. For the truly successful person is happy within and is, in turn, considerate of others by his promotion of justice and charity for all. Without charity we become, as Christ has warned us, as sounds of tinkling brass.

I urge you, therefore, to take your voyage in life in the manner prescribed above. I pray that happiness and good fortune will befall your paths. Follow the avenue to nobility by following the road to God and blessings will be yours always and all ways. God love you!

PRESIDENT'S ADDRESS

Dear Classmates:

Now is indeed a time for mixed emotions. For now we feel the joy and pride that accompanies the attainment of a worthwhile goal. But also, inside of us, we have a certain feeling of melancholy, simply because we realize that we are leaving behind us the friendly and sheltering halls of Chariho. Here we have spent six important years of our lives, years marked by emotional maturity coupled with physical and scholastic development. Now we must proceed into an environment that is for the most part entirely new to us. But whatever occupations we pursue, whether higher education, military service or employment, we can feel confident that the groundwork laid for us here will serve to guide us throughout our lives.

We can never begin to repay all of the people who have helped us through these years. Foremost among these were our parents, teachers and the administration. But we cannot forget the school committee and the general public who were always there when needed. It has been these five factors working in a concerted effort with our class that has made for our successful tenure at Chariho.

And now to the excellent class officers, Wayne Findeisen, Vice President; Sharon McIntire, Secretary; and Karen Bentley, Social Chairman, I extend my sincere thanks for their time and effort in helping to make our class what it is. Also, I would like to acknowledge our fine class advisors, Mr. Ruggieri and Mr. Nelson, for their invaluable counsel and aid. It is to these people and to you my fellow classmates, that I extend my congratulations and best wishes in the hopes that God will watch over and protect you always.

Loaded with many hidden talents, our All-State alto can be counted on to liven any gathering simply by being her naturally happy self. Always willing to adapt to new situations with an honest determination, Linda has proven to be an exceptional soccer goalie and a loyal worker for school activities. As a budding journalist, biologist or English teacher, we give Linda a hearty "Good luck."

Our best wishes go with you, Marc.

In either field, we are sure that Fuzzy will find great success.

ELWOOD ALTON GARDINER

Towering over all his classmates, "Skip" walks very slowly through the halls, holding up lines of traffic. However, on the basketball court our star center isn't tortoise-like at all. He is most happy when he is just having fun, and does he really know how to enjoy himself! Just being with his many "Soul Brothers" makes the day complete for Skip. A college education is Skip's aim for the future. Best of luck!

WAYNE LAWRENCE FINDEISEN

He claims that the school lunch program has thoroughly prepared him for survival in the wilderness. Though his future plans are undecided, we know that his cheerful nature and heartiness will aid him in whatever he endeavors.

ROBERT ELMER GORDON

"Bob," with his winning smile and sparkling eyes, is one of the class's most popular boys. Having been on the basketball, baseball, and soccer teams, he is one of our more athletic members. We wish Bob the best of luck with his plans.

IRENE IDA KLEMENSOWICZ

"Klem," well-dressed and attractive, has contributed much to the class by her readiness to help on committees and the various staffs of the yearbook. That real great band, "The Rhode Runners," will never be forgotten by this enthusiastic blonde who enjoys dancing to their beat. She is equally enthusiastic about her hobbies, which include almost every sport you can name. Irene hasn't definitely decided what she'll do after graduation, but we wish her all the happiness in the world.

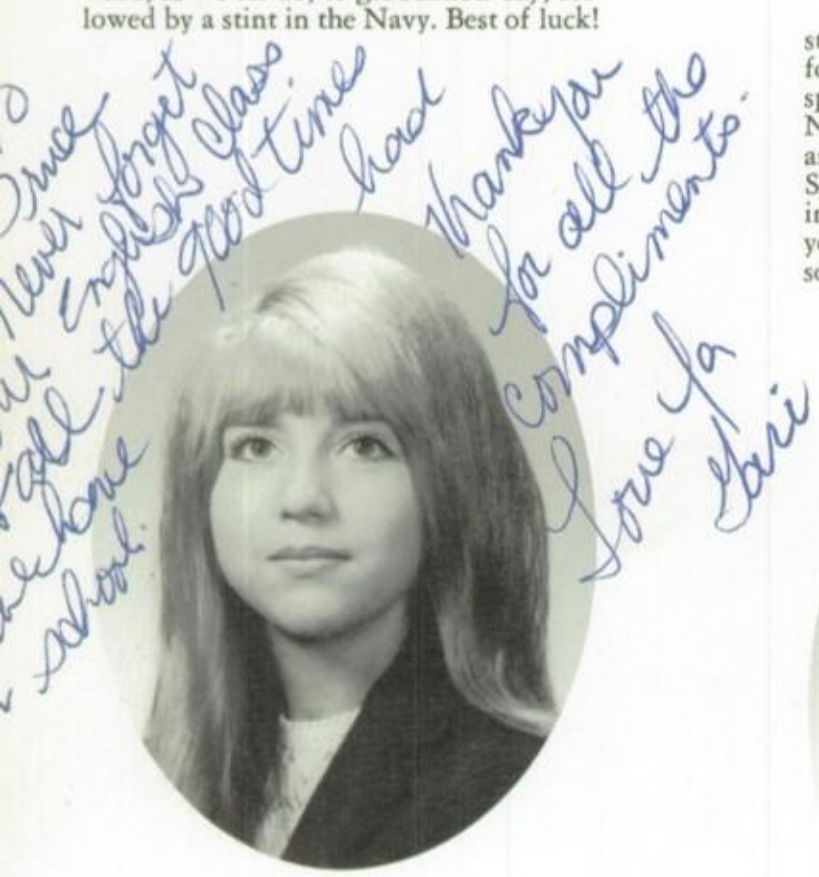
RICHARD ALAN LEWIS

"Lumpy," who joined us in our junior year, can be found driving a little white Triumph around the Chariho area. Much of his leisure time is spent fishing or working at the hospital. Rich looks forward, as we all do, to graduation day, followed by a stint in the Navy. Best of luck!



GARI LYN MASON

Gari is one of our fashion-conscious seniors, whose flare for the unusual has made her a definite asset to our class. Washington, D.C. and the travel club will remain as unforgettable times for Gari. An enthusiastic member of the senior class, this expressive and peppy brunette is constantly active in every facet of school affairs. As a cheerleader, secretary, and co-editor of the yearbook, Shari has displayed her vivid imagination and artistic abilities. She is plagued by the memory of the night that fire almost ruined the Junior Prom mural. Shari plans to become an English teacher after graduation. With her various talents, we know she will leave a great impression wherever she goes.

Dear Governor Wilson:

Under your instructions, on March 19, 2000 A.D., I reviewed the inmates and facilities of the Chariho Home for the Insane. The following is a report on that inspection.

Upon my arrival at the Home, I was cordially greeted by the Supervisor of the institution who straight-away began to show me around the grounds, first stopping at the administration building. Here, I found several of the inmates occupied in secretarial work. As we entered we found one, Connie Baton, standing atop one of the desks, modeling the latest in grey denims. Carolyn Thompson was typing the name "Cliff" over and over again, Sylvia Stoner was polishing her nails, Betsy Beaudreau was sipping Metrecal, and Debbie Richmond was typing the alphabet over, and over, and over. Very efficient. Suddenly, Sharman Drake rushed in a side door, made everyone change machines, and ran out again. The director informed me that she does this every fifteen minutes.

In the clinic we found four more inmates. Nancy Cronan was trying to give an injection to Randy Tefft, who was chasing her around an operating table in his "skivvies" and an army helmet. Over in the corner, Gari Mason was soothing David Tarbox with Beethoven. Every once in a while, however, Tarbox would jump up and yell, "Charge!!", at which Tefft would start running all the faster.

We just barely escaped from the scene when I heard all sorts of splashing and strange sounds coming from the back of the building. Upon investigation, I found that there, in the pool of the Home, were Brian Thorpe, Ken Tucker, Bill Fiske, and Richard Lewis. Each had a little sailor's cap on, and they were all playing with toy boats. Suddenly, a figure ascended from the bottom of the pool and broke water in the middle of the battle of Midway shouting, "I've found Atlantis!" The director told me that this patient was John Szalkowski.

We next went to the intensive care unit. The first room we came to had a sign over the door saying, "United Theater." Inside was Howard Cooke showing home movies to Odin Straatveit, who was drinking water from a bottle marked "Rum," and Ed McGiveney, who was constantly leering at pictures of girls and counting two one dollar bills over and over. The next two rooms were very interesting. In one, Greg Kenney, Allan Rathbun, and David Brayman were constructing a computer that says, "Duh," with a home electronic kit. The next room was half full of water, but looking in we could see Fred Tough busily whistling and "fixing" water pipes.

Suddenly, Rober Horne came screaming down the hall. He was closely followed by Peter Fallon and David Beaudreau, who were armed with butcher knives, and shouting something about a head transplant with a dog. To escape from this scene, we ducked into the next room and found Robert Gordon, Bill La Fountain, and Thomas Wilson building a skyscraper with an erector set.

Next, we were shown through the Special Education section of the building. The four teachers, Prudence Lamb, Carol Champlin, Nancy Pratt, and Sally

Drake were supervising a demonstration on how to cook eggplant by Judy Poston, one of the patients. The ladies told me that all the students, Brenda Perrin, Elaine Carpenter, Holly Downey, Nancy Browing, Donna Clarke, and Brenda Johnson took turns teaching the class in various subjects. They told me that the only problem was that it was often difficult to tell the teachers from the students, and that the quartet had already been locked up twice this month. In the adjoining room I found Linda Coulter and Lynne Pendleton singing and playing chopsticks on the alto clarinet. I was told that this was the only song they knew, (they had taught it to each other) and that they played it constantly.

Next we came to the art class, where Linda Olsen was painting portraits of dollar signs, on canvas after canvas. On the far wall Susan Whitford had painted a huge mural of hearts and flowers which she kept trying to climb into; they were quite hopeless.

As we walked across the compound I noticed three small booths against a far wall. "Here," the director said, "are several stores run by inmates." Ronald Noyes ran one in which the prisoners could buy all their denim uniforms. The next one, run by Elwood Gardiner, sold ping pong, volley, and tennis balls. The last one was a package store run by Donald Colbert. As we continued on our way we passed Doug Yattaw taking a picture of his big toe, and Darryl Pope writing down the music of the birds for a new composition of his.

Entering the next building, we found Byron Champlin and Sally Mashl writing love poetry. Galloping up and down the halls was Bonnie Brown, looking for sick dogs and cats. Running behind her was Wayne Findeisen, doing chest, biceps, triceps, and gluteus maximus expanding exercises. I was ushered into the personal hobbies room next. There I watched Nora Wilson performing erotic dances of the suburban inhabitants of Des Moins, while in a corner, Judson Kenworthy prepared his next case against Clarence Darrow. William Haberek was seated in an easy chair studying every U.R.I. Bulletin since 1914, while Susan Weber sat at a desk, with a bookkeeper's ledger before her, sharpening pencils endlessly. We then entered the section of the Chariho Home reserved for married inmates. Gathered around a plastic doll, knitting, were Pat Brusseau, Terry McPhee, Anita Carr, Karen Bentley, Bonny Robar, and Anna Spencer.

Trying to leave I was cornered by Paul Donahue, who was telling jokes. An hour later we went to the next room, where Peggy Ervin was submerged in a tub of algae, reciting bawdy French poetry. In the corner I spied Rainy Boucher and Sherry McIntire rummaging through the garbage for reusable food.

It was then that I noticed the time and decided to leave. As the director led me to the front gate, we passed a mud puddle on the grounds where Dale Terranova was standing on a surfboard. My host explained to me that she was waiting there for the surf to come up, so she could practice for the world championships in Hawaii.

The director gave me a great deal of information pertaining to what the institution was trying to do for these unfortunates which I am forwarding to you. From this study, I would recommend that we keep the institution in operation. To set set these people free would be too much for the world.

With respect,
A. T. LODGE, JR.
State Inspector of Asylums

Apple-polishers at work.

Hush, Puchalski speaks

"Should I or should I not."

"You must say that to all the girls."

"Ah Byron, can't I look at your purse?"

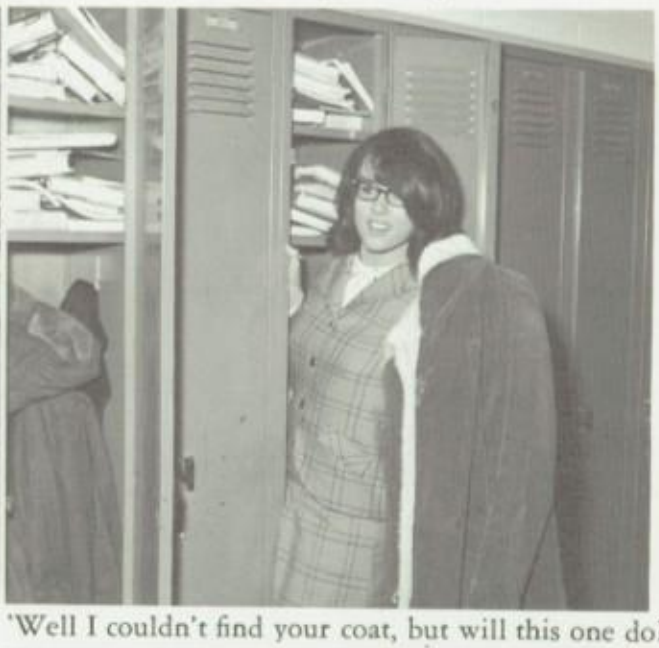
"I'll only be one minute, Mr. Sullivan."

"Oh boy — she said a no-no!"

"I want my mommy."

"I'm smiling, I'm still smiling."

"What a day for a day dream."



'Well I couldn't find your coat, but will this one do?"

"Next time you bring me the good news, call me up on the telephone."

"Next we have the cartoon."

"No, no, isn't that the way it goes?"
